

MR

Features

The MR series elastomer isolators are made of nitrile rubber, which is corrosion-resistant, heat-resistant, and wear-resistant. They also offer excellent vibration damping and noise reduction performance. With a low-frequency design and a spray-painted surface, they have good weather resistance and effective vibration isolation.

Technical Data

Type	Model No.	Rated Load (kg)	Max. Deformation (mm)	Horizontal Load (kg)	Horizontal Deformation (mm)
MR	1-30	30	4.5	6	5
	1-40	40	5	10	5
	1-50	50	5.5	15	5
	1-75	75	5	20	5
	2-90	90	6	20	6
	2-90M12	90	6	20	6
	2-110	110	6	25	6
	2-160	160	6	40	6
	2-160M12	160	6	40	6
	2-250	250	6	65	6
2-250M12	250	6	65	6	

Installation Dimensions (mm)

Type	Model No.	A	B	C	D	E	F	G
MR	1	80	60	29	50	31	8.5	M8
	2	100	76	32	60	46	8.5	M10
	2-1	100	76	32	60	46	8.5	M12
