

ZA

Features

The ZA series elastomer isolators feature high elasticity and low stiffness, offering remarkable vibration isolation. They are durable, provide stable load-bearing capacity, and effectively reduce equipment vibration and noise. Suitable for various working conditions, they also have a long service life.

Technical Data

Type	Model No.	Rated Load (kg)	Static Deformation (mm)	Natural Frequency (Hz)	Damping Ratio (C/Cc)	Temperature (°C)	Weight (kg)
ZA-39	40	100-400	1.3-10	15-10	±0.08	-5--+50	6
	50	150-450	1.6-4.1	13.5-9			
	60	200-550	1.5-4.0	13-9			
	70	250-650	1.2-3.8	13-10			
ZA-49	40	250-550	3.8-8	10-8.5			11.5
	50	300-750	2.0-5.7	14-9.5			
	60	400-1000	2.4-5.5	15-10			
	70	500-1200	2.3-4.5	15-11			

Installation Dimensions (mm)
